

Product Specifications

PANEL: 5052 type Marine-grade Aluminum Alloy

OUTSIDE MOUNTED FRAMES: 1-1/4" x 29/32" x 1/8" aluminum extrusion 6062 alloy T5-T6, with 10-32 stainless steel allen head tightening. Black anodized channels are also available if specified.

FLOOR SURFACE: We recommend our 319 threshold (1/4" x 2" beveled aluminum plate).

SEALS: Neoprene lines the bottom of the shield. Sponge Rubber lines the channels. Our seals are composed of high-density rubber extrusions for increased strength with a low hardness that provides superior compression.

HARDWARE: #10 x 1-1/2" FHPH with plastic expansion tube anchors. Snap covers

for safety provided for the top of the channels and for the mounting holes.

INSTALLATION: Can be installed on hollow metal, aluminum or wood frames; and on concrete, brick or metal surfaces.
